
SICKNESS IN CHILDREN
and the suffering which they undergo from
"WORMS" often tend to a fatal termination while
the CAUSE is never suspected. Offensive breath,
picking at the nose, grinding the teeth during sleep,
starting in sleep with fright and screaming, trouble-
some cough, and feverishness, are among some of
the *Prominent Symptoms* of the presence of worms,
a timely use of
SHERMAN'S WORM LOZENGES
Will immediately remove all these unpleasant symp
toms, and restore to perfect health. Sister Ignati
s, Superior of the Catholic Half Orphan Asylum,
has added her testimony in their favor to the thou-
sands which have gone before. She states that
there are over 100 children in the Asylum, and
that they have been in the habit of using Sherman's
Lozenges, and she has always found them to be at-
tended with the most beneficial effects. They
have been proved to be infallible in over 400,000
cases.

CONSUMPTION,
Influenza, Coughs, Colds, Whooping Cough, Tight
ness of the Lungs or Chest may be cured. Rev.
Darius Anthony was very low from Consumption,
Jonathan Howarth, the celebrated temperance
lecturer, was reduced to the verge of the grave by
raising blood. Rev. Mr. Dunbar, of New York,
the Rev. Mr. De Forest, Evangelist in the Wes-
tern part of this state, Rev. Sebastian Streeter, of
Boston, the wife of Orasmus Dibble, Esq., in Mo-
ravia, and hundreds of others, have been relieved
and cured by a proper use of
SHERMAN'S COUGH LOZENGES,
and no medicine has ever been offered to the pub
lic which has been more effectual in the relief of
those diseases, or which can be recommended with
more confidence. They allay all itching or irrita-
tion, render the cough easy, promote expectoration,
remove the cause, and produce the most happy and
lasting effects.

HEADACHE,
Palpitation of the Heart, Lowness of Spirits, Sea-
sickness, Despondency, Faintness, Cholic, Spasms,
Cramps of the Stomach, Summer or Bowel Com-
plaints, also all the distressing symptoms arising
from free living, or a night of dissipation are quick-
ly and entirely relieved by using
SHERMAN'S CAMPHOR LOZENGES.
They act speedily and relieve in a very short space
of time, giving tone and vigor to the system, and
enable a person using them to undergo great men-
tal or bodily fatigue.

RHEUMATISM,
Weak Back, Pain and weakness in the Breast,
Back, Limbs and other parts of the body are speed-
ily and effectually relieved by SHERMAN'S
POOR MAN'S PLASTER, which costs only 12½
cents, and is within the reach of all. So great has
become the reputation of this article, that one
million will not begin to supply the annual demand.
It is acknowledged to be the best strengthening
Plaster in the world.

BEWARE OF IMPOSITION.
Dr. Sherman's Poor Man's Plaster has his name
with directions printed on the back of the Plaster,
and a ☞*fac simile*☜ of the Doctor's written name
under the directions. None others are genuine or
to be relied on. Dr. Sherman's Warehouse is No.

HALE'S PURE RUBBER MACHINE BELTING,

For Sale by LUKE C. CHILDS, 67 Water St.,
BOSTON.

THE above superior article is fast superceding the use of Leather-Belting, as for most purposes it is in every way better. Its good qualities are that no degree of moisture will affect it, and it will bear almost any degree of heat. It is of equal width and thickness throughout, and requires only one lacing in the longest belt. Practical mechanics, who have used this particular manufacture, think there is a gain of 15 to 25 per cent in the movement of the machinery, as it is perfectly flexible, and runs with much less strain upon the pulleys and drums.

RUST PROOF IRON,
FOR
ROOFING, WINDOW SHUTTERS, &c.

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc, &c., or any other metal now used for roofing, and consequently form a much better and tighter roof; requiring far less frequent repair, whilst the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metals, to the many other purposes to which Iron thus protected, can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c., they will be able to furnish any article which may be desired. A supply of Plates (manufactured in Europe,) constantly on hand, from 16 to 32 wire gauge. GEO. B. MOREWOOD & CO.,
Nos. 14 and 16 Beaver-st., New York.

The Patent Right for this article has been secured for the United States as well as Great Britain, and other European countries, and all legal measures will be taken to prevent any infringement by importation or otherwise.

Valuable Water-Power and Land for Sale.

THE subscriber offers for sale 200 acres of good land, situated in the east part of Sebec, on each side of Sebec River, comprising the Falls known as "Half-mile Rips." A substantial Dam has just been built at these falls, and by running a canal a short distance a fall of 20 feet is obtained, affording one of the best water privileges in the State of Maine. The Sebec River affords sufficient water through the dryest seasons for a large amount of Machinery, is not obstructed by ice, and there is no danger of damage by freshet. The location being 36 miles from Bangor, and 12 from Katahdin Iron Works, is a favorable one for the manufacture of Cotton, Wool, Iron, &c. Also, a Saw-Mill and Shingle-Machine might do a good business.

OUR STOCK OF

Long and Square Shawls

The value of our SHAWLS and SILKS alone, is more than

In Ladies' Dress Goods

we commence at a fine LONDON PRINT at ninepence, and go up through all the varieties of Ginghams, French Prints, Lawns, Muslins, Jaconets, Brilliantes, Grenadines, Mous de Laines and Mohair and Tassore Plaids, &c. &c. to the richest SILK MUSLINS, BAREGES and CASHMERES imported.

Elixir of Opium,

FOR sale by G. F. SARGENT,

Institute of Natural History and Science.

THE Subscriber proposes to receive a few Lads for instruction in the various branches of Natural History.

Being furnished with an ample Cabinet, and a well selected Library, he hopes to meet with sufficient encouragement, and thereby *indoctrinate* the rising generation, in this community, on subjects of Natural Science.

His course of instruction will be in a pleasing, conversational style, and in modes conducive to the general and individual satisfaction of the members composing his class, as well as to the primary object, the advancement and diffusion of useful, liberal, human knowledge.

Frequent excursions will be made, as often as practicable, in the surburbs of the city, into the country, and to the sea-coast; thus enabling the student to study in their natural abode the various objects of his pursuit.

Each student will also be required to become a *Collecteur* and *Taxedermist*, and to provide himself with means, in the way of *materiel*, for the formation of his collection. At the end of the season a Catalogue will be published, containing the names of members together with a descriptive list of the collection made by the Class.

The study of Natural History is one of the most ennobling pursuits of the human mind, and should, by general acclamation, be the basis of study.—There was a time when an exclusive utilitarian system discarded natural science, and taught those pursuits which led to wealth as alone worthy of ambition; but a change has now taken place, and Natural History is assuming rapid strides as among the most useful and interesting branches of information.

No branch of Natural History or Science is taught at our public schools, save Botany, and that indifferently, as the old routine of knowledge has been rigidly enjoined, and the labor of the teacher thereby restrained from the duty.

The Subscriber, therefore, with a view to supply this deficiency, will, if sufficient encouragement be given, devote his attention to Natural History exclusively.

For more particulars, and terms, application may be made to the subscriber, at his residence on Pine street, or at his late place of business, Messrs. Hall & Young's. A. YOUNG, JR.

Steam Travel on the Penobscot River above Oldtown.

Our readers have been made [illegible] nted with the fact that the Messrs W & D Moore Jr, of Waterville in connection with W B S Moore and Wm Cutting Esqrs of this city have for some time been engaged upon the enterprise of navigating the Penobscot river from Oldtown to Mattawamkeag by steam The survey of the river has satisfied them of the practicability of making the necessary improvements in the river for maintaining a navigable channel through the season

On Saturday last their steamboat the Mattawamkeag, made her first experimental trip from Oldtown to Howland, at the mouth of the Piscataquis river This boat is one hundred and [illegible] feet long besides her large wheel at the [illegible] She has two steam engines of 14 in[illegible] nder and four feet stroke These engines [illegible] the boiler and machinery were manufactured by our citizens Messrs Hinckly and Egery — [illegible] boat draws eighteen inches of water and [illegible] ton of freight causes her to sink about a [illegible] of an inch She can carry about thirty [illegible] for an ordinary load She has a [illegible] and pretty furnished cabin for [illegible] and another for Gentlemen Her passage will all be made by day light and of course [illegible] are required for passengers There is a spacious promenade deck and she is ca[illegible] of giving very good accommodations, in [illegible] weather to a party of from two to three hundred persons

There was a pleasant party of some sixty per[illegible] took passage on Saturday Her starting [illegible] much interest, particularly among the [illegible] on Oldtown Island, who came out [illegible] their houses and camps in great numbers [illegible] in squads upon the banks The steam [illegible] had given them a summons of another [illegible] in the restless spirit of the times The route was taken, leading by Veazie's Boom, [illegible] probably an hundred men are employed [illegible] account of this boom operation would make [illegible] chapter for our readers, but we must de[illegible] proceed with the boat upon her excur[illegible] had nearly reached Sunkhaze rips [illegible] of her cranks became loose upon the [illegible] she was run on shore for the purpose [illegible] it The shaft was keyed up in a short [illegible] and the boat put in motion to work her way [illegible] the Rips She had succeeded finely and [illegible] at the point of the greatest force of water [illegible] crank again loosened—the machinery was [illegible], and she swept rapidly back by the current. Her bow was directed to the shore and in [illegible] minutes she was quietly laid along side the [illegible] in an eddy Here we lost all our fair passengers together with their gallants and the Land[illegible]

The weather was raw and rather un[illegible] and the fear of accidents and ignorance [illegible] nature of the trouble, caused them to [illegible] With them departed all the poetry of the [illegible] and all hope of a pleasant dinner at Passadumkeag Henceforth it was an experiment [illegible] scientific and business sort of matter [illegible] it was eminently successful The [illegible] was fully secured and [illegible] we started, [illegible] up the Rips at Sunkhaze, Brick Island [illegible] and Passadumkeag, to Howland at [illegible] mouth of Piscataquis river Had there been [illegible] we have no doubt she would have been [illegible] successful in ascending Piscataquis rips [illegible] making her passage good to Lincoln and [illegible]

[illegible] tons of freight were landed at Howland. The people there as well as at Passadumkeag, [illegible] all along upon the river, manifested [illegible] interest in the appearance of the boat— [illegible] hearty cheers went up and the [illegible] demonstrations of joy were manifested — [illegible] steam-whistle sent its shrill voice into the [illegible] solemn woods and echoed along the shores, [illegible] the glad news of an advance step in [illegible] and new means of communication [illegible] other and the wide bustling world, to [illegible] one of the upper waters of the noble [illegible]

[illegible] passage up the river was made at an [illegible] of six miles the hour, and the passage [illegible] about twice the number of miles Des[illegible] the rips was capital and particularly the [illegible] sweep down through the crook, a point of [illegible] in the river

[illegible] freshet is high and the river now makes [illegible] imposing appearance, admitting the boat [illegible] any course she pleases among the nu[illegible] islands

[illegible] communication from this city to Howland, perhap to Mattawamkeag, will now [illegible] as the regular trips of the boat have [illegible]

[illegible] some pleasant friends at different [illegible] on the river but must defer to another [illegible] and after another trip, our remarks upon [illegible] points of interest on the river, and [illegible] views of the influence of this navigation of [illegible] upper Penobscot on them The enterprise [illegible] certainly one which every man in any way [illegible] interested in property on the river, should endeavor to promote, as a matter of convenience and profit.

☞ Eight distillers, "all honorable men, recently petitioned Parliament for [illegible] immunity in favor of their business, and [illegible] Stanley stated to the House of Lords, that the excise duties on spirits manufactured by these eight gentlemen amounted to £3,000,000 [illegible] or nearly $17,000,000 per annum. [illegible] these eight gentlemen used [illegible] 000 quarters, or 10,400,000 bushels of grain yearly in the course of their trade!

☞ The Native Americans of Boston are dissatisfied with the arrangement by which the Boston Eagle was suspended and are about to establish a new daily to be called the American Signal

☞ Seventy three vessels are reported as having arrived at this city from Friday night to Sunday night last

☞ There was an incident connected with the first trip of the steamboat Mattawamkeag to Howland which illustrates the aptitude of [illegible] men for turning an honest penny, and at the same time showing the advantages of increased facilities of transportation A trader at Oldtown took passage in the boat and was set ashore at a farm in Howland, having made an arrangement to be called for on her return. He purchased potatoes at fifty cents a bushel, had his bags filled and on the arrival of the boat threw them on, and proceeded homeward, having cleared some ten dollars by the operation

Mr Lowell's Expose.

Mr Lowell informs us that numerous typographical errors and misreadings appear in the Boston Tribune's publication of his exposition, and as this city is the principal scene of interest in the matter, and large numbers of the Tribune containing his article, are understood to have been vended here, he requests us to publish the following note of the most prominent errors—stated by himself thus:

Mr. Barnekoy's Concert.

We were unable to attend the concert given by Mr Barnekoy on Saturday evening Those who attended speak very highly of his skill, and a correspondent, in whose taste we place [illegible] thus speaks

The Concert given on Saturday evening by Mr Barnekoy assisted by Mr Weston, of Augusta, was well received by a very intelligent and discriminating audience Barnekoy displayed great musical talent in his several performances not only on the piano and guitar but on the violin

It would be difficult for any one to determine which instrument he excels in He seems to be master of them all The first piece performed by him on the piano, "Variations Sur les V[illegible]" [illegible] we have never listened to with more pleasure. He seems to have a perfect command over the notes, and is evidently a superior pianist The "Carnival of Venice" on the violin, assisted by Weston on the piano, was admirably executed and was received with great applause by the "admiring audience" We might mention several other pieces, but for the short time allotted us we will only notice the *finale*, the "Spanish Retreat," on the Guitar, was such music as the soul beats time to He carries you through all the different scenes of the battle You hear the far off [illegible] "soul stirring drum" drawing nearer and nearer, till at last the fierce battle commences, the cannon's deafening roar—the clashing of arms with the fierce charge of the contending hosts Then all seems quiet, save the bugle sending forth its seemingly mournful notes, till the sound dies away in the distance and all is silent

The assistance of Mr Weston was an addition He is a violinist of no small order, with practice he will become one of the first

We hope Mr Barnekoy will have sufficient encouragement given him to remain in our city He is a *teacher* as well as *performer*

From the City of Mexico.

We yesterday had the pleasure of a conversation with Mr Black, late American Consul at the city of Mexico, who left there on the third of April, and arrived yesterday morning on the brig E E Pierce, Capt Carr in nine days from Tampico Mr Black, on the 31st March, shortly after the arrival of Santa Anna from Buena Vista—when no doubt the one-legged hero was exceedingly annoyed at the immense labor he had been at to manufacture a victory out of the battle of Buena Vista, and felt in anything but an agreeable mood towards the barbarous North Americans— received an order, through the Governor, to quit the capital immediately This peremptory order was given [illegible] in Passion Week—a time when no business, public or private, is transacted, and when it is almost an impossibility to obtain the means necessary to depart Mr Black, however, succeeded in getting ready to leave in a day or two, and in having the archives of the legation packed, which he brought with him, and demanded an escort, which was at first refused A variety of petty artifices were resorted to to entrap him into a position that would afford a pretext for his arrest and imprisonment, but finding them fruitless he was granted an escort, and left the city on the evening of the 3d of April The order required him to embark from Tampico, and although he was promised, and was according to the usages of civilized nations, entitled to an escort the whole distance, he was furnished with one for only thirty leagues from the capital, to a place called Rio del Monte, from this place to Tampico he was obliged to employ escorts—and sorry escort they were One of them, consisting of two men, had a sword and musket between them, the barrel of the musket being fastened to the stock with a cord, another, composed also of two men had two old rusty swords between them—both escorts travelling on foot Notwithstanding all this he was not molested on the journey

From Mr Black we have learned much that is interesting and important in relation to the state of affairs in the capital We have later dates than he brings, but his information is of a character that can only be obtained from an intelligent observer, who has had the advantage of a long residence among the people he speaks of The sincere federalists, both moderate and ultra, are the most urgent for the prosecution of the war, not because of a feeling of hostility to the United States, for they desire, if there is no other means of establishing their system of government, an union with the United States, but because they wish the whole race of military tyrants exterminated, and to destroy thoroughly the basis of their power, look to the continuance of the war and the annihilation of the army — Many men of property, not belonging to this party, and a number of the priesthood, seeing the utter hopelessness of success in contending with our armies, are also looking to the subjugation of the country as the only means of restoring tranquility and securing them in their possessions. Mr Black confirms the report that many of the Mexicans suspect Santa Anna of treachery, and the clergy and the people, poor and rich, are murmuring against exactions to support a war which has resulted in nothing but disasters to the country The country is without arms, there being scarcely anything left to them, since their recent defeats, but old and almost useless small arms and very few cannon Mr Black, for this reason holds the idea of resistance of consequence to General [illegible] march upon the capital, as preposterous Santa Anna is already nearly reduced to the position the federalists wish him in, being left but a guerilla party to operate with, and whether he ever [illegible] peace or not, he cannot now be expected to make an attempt at bringing it about while a hope remains to him of being able to recover the ground he has lost Whether those who look to American rule for amelioration of their condition, will endeavor to bring about peace, remains to be seen

When Mr Black left, affairs were in such a state of confusion that no idea could be formed of what might take place within twenty four hours, but the Government had determined upon removing to Lagos, distant about one hundred leagues from the capital whenever our army reached the vicinity There is but little means of resistance at the capital When Mr Black left there was not over half a dozen pieces of artillery there and knowing of no source from whence sufficient ordnance can be obtained, he is of opinion that a defence will not be attempted

We regret to learn that Majors Gaines and Borland and Capt Clay and the other prisoners taken at Encarnacion notwithstanding Santa Anna's engagement to release them when prisoners were exchanged after the battle of Buena Vista are closely confined and their wants neglected Even La Vega who was treated with so much respect and consideration in this city, turned a deaf ear to their complaints when military commandant of the city of Mexico — N O Pic , 12th inst

Advance of Gen Scott.

We spoke yesterday in terms of certainty of Gen Scott's determination to advance on to the capital of Mexico, without delay or procrastination, indeed, we spoke of him by this time there and this without reference to the arrival of the deputation which it was said came to his quarters, offering him a peaceful surrender of the city

The Picayune publishes a letter from Mr Kendall, dated Jalapa, May 4th, in which he says that the forward movement had been countermanded

Now, although Mr Kendall's letter is dated five days later than the time at which our informant conversed with Gen Scott we are still inclined to believe that our statement is the more correct one Gen Scott was unreserved in the development of his views to our informant, and at that time, the 29th ult his purpose was fixed to proceed or forthwith to the capital and the fact that the term for which so many of his men had enlisted was about to expire was one of the main causes that urged his precipitation He was not going he said, to waste the fruits of his success at Vera Cruz and Cerro Gordo by inactivity and indecision His force was limited—his money and supplies still more so He would however, push on His force was sufficient to march to the capital and cause it to surrender by doing it before the enemy has time to rally and make a well prepared resistance Once there he would trust to the Government to promptly and fully reinforce him As for money and supplies though he was determined to have if they were in the country—not by plunder or pillage, but by giving his orders at sight on his government for every thing taken These views he communicated to the Secretary of War in his despatches of the 29th ult. In three or four days afterwards he may have changed his opinions and his whole plan of operations, though it is not very likely —N O Delta

From Chihuahua.

Moses Campbell, of Springfield, Mo, with thirty men, arrived at N w O leans from Chihuahua, by the way of Red River He left the city the 15th of March by the way of Presidio. Shortly after passing the Rio Grande, three Indian guides deserted them On the 5th April they passed through a Camanche village, an at about ten o'clock that night, they were closely pursued by a party of forty or fifty Camanches finely mounted, and as the company had [illegible] won out with a march of [illegible] miles the whole party dismounted and formed for battle upon the edge of [illegible] In this position the Indians surrounded [illegible] they cut their way through [illegible] wounding several The Indians had bows and arrows, and some rifles, the company were all armed with rifles When the company left Chihuahua, Col Doniphan's army was in possession of excellent health, the climate is delightful and provisions plentiful

☞ The following is an extract of a letter in the N O Picayune

Jalapa, April 29th

I have little doubt that an English influence is at work at the city of Mexico to bring about a peace and it is equally probable that there is a party in the country disposed to listen to overtures How peace is to be brought about is more than any one can say—what terms we could offer that would be acceptable will be found a difficult matter by any commissioner that may undertake the job To defeat the Mexicans in every encounter is easy enough—to settle all differences and disputes with them will be found an entirely different matter

☞ Elihu Burritt in one of his 'Family Letters' to the readers of his paper, thus speaks of the Quakers —

"I would make a grateful mention of the brotherly kindness and christian affection with which I have been treated by all the members of that truly evangelical denomination, whom I have met in my sojourn in the fatherland So sure have I always felt of finding a friend indeed in every Quaker in whom there is no guile, that I am accustomed to inquire if any of those children of peace reside in the town or village in which I may be tarrying for an hour or a night; and I am always well fitted to a home when I cross their thresholds. It is to their bland and beautiful charities that I, in a great measure, owe the home-feelings I have enjoyed in this country, so that I have not felt that I was not living in my own native land, surrounded with my own friends and kindred

Review of the Market for the week ending May 22d

For the first week the Water has been so high, owing to the warm weather that mills have the first part of the week, that there has been but a limited number of rafts run to the city, and were it not that the wind has held at E and N E course during the most of the time, which has prevented vessels from coming up the river (except a few which have been towed up from Frankfort by the steamer Tiger) there would hardly be a cargo of lumber in the docks, [illegible] there is a very limited supply There are very few Boards from first rate up river logs yet in the market only such as have been sawed from logs [illegible] in the mill ponds. Hence is not of the Lakes [illegible] logs will be running into the Boom early in June The saws are at work chiefly on Sapling Spruce and Hemlock logs There are no Extra and Clear Clapboards in the market

Freights to Boston and vicinity are $2 25 a 2 5, and over the Shoals 3 25 a 3 75 There are several [illegible] for Cuba at 20 a 25 cts freight on shooks [illegible] boards 7 50 a 8 50 There are no shipping boards in the market and several cargoes are now wanted

Lumber is in great demand, and about thirty vessels which arrived on Saturday were taken up at the highest freights

☞ Reader, if you are in want of any article in the Dry Goods line, and like to get the greatest bargains—then by all means call at Stickney's New Store, No [illegible] Main street for he has just received a big stock of seasonable goods, and is running them off at such a rate that you must give him an early call if you want to secure some of his great bargains See his advertisement.

SPECTACLES.

THE science to which the adaptation of Glasses to a defective eye has been reduced in France and Germany, supplies with the greatest precision the true focus to the eyes which not only gives [illegible] but retains the same in a constant state of preservation, as long as nature will permit An incorrect focus tends to decline the eye faster and injures vision as much as common glasses with distorted foci—wherefore it becomes requisite that persons requiring the use of this optical instrument, should consult skillful opticians

The subscriber by his theoretical and practical optical knowledge, can apply suitable lenses to almost every eye which has not lost its vision entire, [illegible] short far and weak sighted persons can have the proper foci adapted to their eyes with a surprising degree of facility His Glasses are of the celebrated *Rathenow Institute* (the greatest optical establishment in the world—ground very true, and highly polished, and the best in their effects upon the eye for preserving and improving the same by [illegible] writing and reading

MY EAU LUSTRAL HAIR RESTORATIVE.

It is universally approved and admired article, free from ardent spirits pungent essential oil and other destructive materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. Hair washed with this Extract soon becomes pleasingly soft, and luxuriant in its growth, and it will positively bring in New Hair on Bald Heads by its use, and hair that has been made harsh, and is turning grey or falling out, by the use of spirits or other improper preparations, will soon be restored to its natural color and brilliancy, by a few applications of the Eau Lustral

It is a preservative against Baldness, and an infallible cure in all the affections of the Skin on the Head, as Dandruff, and for preventing the falling off of the Hair, and turning grey.

It is the simple produce and immediate extract of some plants salutary for the hair, endowed with properties so highly cleansing that it disengages the epidermis and capillary tubes of the corrosive action of the perspiration and of the dry and dead particles that it deposites. This preparation purifies the Hair, gives to it a beautiful gloss and softness, and an agreeable and vivifying perfume.

To the Beautifiers of the Complexion.

SURPRISING EFFICACY—My *EAU DIVINE DE VENUS AND NYMPH SOAP*, compound of an [illegible] Botanical discovery of surprising efficacy for rendering the SKIN SOFT and FAIR, as well as imparting a DELICATE ROSEATE HUE to the complexion

As a creator and conserver of that most distinguished charm of female loveliness a transparent, fair skin, Jules Hauel's Nymph Soap, or Eau Divine De Venus, may be said to exert an almost magical power. Composed for the most part of Oriental Balsamic plants to the utter exclusion of all mineral admixture, it is distinguished medicinally for its extremely bland purifying and soothing action on the skin, and, by acting on the pores and minute secretory vessels, expels all impurities from the surface, allays every tendency to inflammation, and, by this means alone, effectually dissipates all redness, tan, pimples, freckles, sunburn, and other cutaneous visitations, so inimical to female loveliness. Its use will change the most bilious complexion into one of radiant whiteness, while on the neck, hands and arms, it bestows a delicacy and fairness which its continued use will happily protect, with every appearance of youthful charm to the most advanced period of life.

TO THE LADIES IN PARTICULAR.

MY DEPILATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, particularly when its growth has been confined to the upper lip and side of the face, giving a masculine turn to the whole features. When used with prudence, and according to the directions, it will be found to be a great addition to the toilet, as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application.

The composition is infallible, and warranted to remove superfluous hair. After numerous trials I have received certificates of success which cannot be contested.

WORMS EASILY REMOVED.
Winer's Canadian Vermifuge.

HUNDREDS OF CHILDREN DIE every year from the disease produced by *Worms*! They are the cause of numerous and frightful disorders. Indeed there is scarcely a complaint common to infancy and childhood which may not be produced or greatly aggravated by the presence of these destructive animals in the stomach and bowels. Cases are recorded of their producing St Vitus's Dance, Locked Jaw, Dropsy, Squinting, Loss of Feeling in the Limbs, Rickets, Palpitation of the Heart, Eruptions, Dry Cough, Severe Pains, Palpitation, Emaciation, total Decline of Strength and consumption. They consume all the nourishment in the body, and finally destroy the child.

WINER'S CANADIAN VERMIFUGE is a pleasant, safe, speedy and permanent cure for this dangerous affliction. It has been faithfully tried, and is universally approved of even by Physicians. It destroys the worms at once, dissolves and carries off the slime which forms the nest of worms and greatly improves and invigorates the system. It is the most perfect thing of the kind ever invented, and no family should be without it.

Parents may be assured that this medicine is perfectly harmless in all its effects. It is carefully compounded of the very best materials, and there is not the least danger in using it.

DR. UPHAM'S
Vegetable Internal Remedy
FOR THE PILES!
☞ A Cure for Life Secured. ☜

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflammation of the Spine and for the relief of Married Ladies

"THE VEGETABLE PILE ELECTUARY." Invented by Dr A Upham, a distinguished physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this. It is an INTERNAL REMEDY—not an external application and will cure any case of Piles, either Bleeding or Blind, Internal or External, and probably the only thing that will. There is no mistake about it. It is a positive cure, speedy and permanent. It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve doses, at 8 1-3 cts per dose. It is very mild in its operation and may be taken in cases of the most acute inflammation without danger. All external applications are in the highest degree disagreeable, inconvenient, and offensive, and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and *removes the cause* renders the *cure certain and permanent*.

INFLAMMATORY DISEASES.—Although the Electuary was originally prepared for the cure of PILES, yet it has proved itself to be a medicine far superior to all others in all diseases of an Inflammatory character, attended to determination of blood to any particular part of organ. In inflammation and Congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys, and Bladder, in Inflammatory and Mercurial Rheumatism, it is the best Medicine ever discovered.

IMPURITIES OF THE BLOOD.—For all Impurities of the blood arising from the improper use of mercury, or other causes, in all Diseases of the Skin and Scrofulous Affections, in all cases where the Blood is powerfully determined to the Head, producing dizziness and distress, Dr Upham's Electuary is entirely invaluable.

TO MARRIED LADIES.—Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent Inflammation of the stomach, bowels and spine, weakness of the back, flow of blood to the head &c. The Electuary is perfectly safe for Pregnant Ladies and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, *without pain or irritation* but will ensure an easy time, a safe delivery, and a sound constitution in the offspring.

CURE FOR THE PILES GUARANTIED.—The Electuary contains no mineral medicine, no Aloes Colocynth, Gamboge, or other powerful and irritating Purgative. No fear of taking cold while under its influence, no change in diet is necessary. If taken according to the directions, *A cure for Life is Guarantied.*

Pamphlets, giving valuable information respecting this Medicine, may be obtained of Agents, gratis.

CONSUMPTION CURED!
BUCHAN'S
HUNGARIAN BALSAM
OF LIFE.

HONI SOIT QUI MAL Y PENSE
DIEU ET MON DROIT

THE
GREAT ENGLISH REMEDY
For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, is at once unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints, now known in the civilized world

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country, as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, cough and inflammation, that can possibly be [illegible]

SPITTING OF BLOOD! This frightful symptom of approaching Consumption, is speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the acrimonious tubercles, and restores those vital organs, the lungs, to a sound and healthy condition

REMEMBER THIS! Spitting of Blood always arises from a tendency to Tuberculous disease, and if not checked, at the outset, will sooner or later determine in death. A person who raises blood once, will raise blood again, unless a proper curative is immediately employed.

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the *Lungs* or the Membrane called the Pleura, or from Bronchial affection of the air passages. In either case it is a very dangerous indication of disease. It prevents full and free breathing, and wears away the natural strength of the system. The cause of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr Buchan which is entirely vegetable in its ingredients, and perfectly harmless in all its qualities.

LIVER COMPLAINT. In cases of Consumption the Liver is always more or less affected, and also the Spleen, Pleura, and small intestines. On dissecting Consumptive patients, Tubercles are often found in all these organs, particularly upon the Liver, which also becomes fatty, oily and swelled. The effect of the Hungarian Balsam in diseases of the Liver, especially that be of an ulcerous nature, is direct and powerful. *Simple disease of the Liver, unattended by Consumption is speedily cured by its use.*

WINTER COUGH. The harsh, dry, hacking winter cough which afflicts old people, and invalids in a low state of health is happily affected by the *Hungarian Balsam*

It warms, moistens, and stimulates the whole breathing apparatus, removes all morbid matters, and other [illegible], purifies and animates the blood, improves the active power of the Liver, Spleen, and other large glands, and the digestive organs, and imparts new life to the wan and emaciated system

BRONCHITIS. Bronchitis, Difficulty of Breathing, Harsh Cough, Slimy expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs, are directly and scientifically cured by the use of the admirable remedy invented by *Dr Buchan.*

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs, and thereby to induce the worst form of Pulmonary disease. Be warned in time, ye afflicted! and employ this valuable remedy.

TUBERCLES ON THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally esteemed we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect. In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers, (as he has frequently stated,) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some lighter form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempt to cure diseases of the Chest and Lungs. The Cough, which is so distressing, is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough. Coughing is an attempt to throw off this matter, and expectoration gives great relief. Inability to expectorate in the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*— It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world, if its expectorant quality alone be considered

SPASMODIC ASTHMA. Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam. This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

CONSUMPTION! Consumption has been graphically described as a *Shrinking of one's self!* The Hungarian Balsam, by its cleansing, warming, softening and animating power, produces, not shrinking but *expansion!*

Before its delightful influence, all chills, fever, night sweats, costiveness, blueness of the nails, a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun. This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country

BE WISE TO DAY! Delay in any case of Consumptive tendency, is emphatically, Death under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time

THE GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that class of M[illegible] denominated PATENT, should be [illegible] sources of incalculable and enduring blessings [illegible] Suppose, for example, [illegible] and sagacious observers [illegible] learning and experience brought [illegible] upon the invention and manufacture of a PILL. Why may not this long devotion to the division of medical science be crowned with the success that attends the sacrifice of similar talents and toil in other things? There is no reason, and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be as perfect an article as can be made by man. *Twenty five years devotion* to any one subject will give a man of ability the mastery over it. Thirty years [illegible] has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, in tracing the history of all great inventions that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME. The mariner's compass, for instance, was not invented until the "fulness of time" it was needed. The loadstone always lay at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom until the Divinely appointed time drew near when distant continents and islands were to be unveiled. Behold it now transferred to the binnacle of the adventurous sailor, enabling him to [illegible] away upon unknown Oceans, instead of timidly skirting within sight of familiar landmarks.

So with the discovery of the New World, upon whose shores was to arise this Great Nation to a power and glory, surpassing far beyond the conception of the wisest [illegible]. The Old World had reached its highest [illegible] the "fulness of time" drew near for the revelation of the New, and behold the immortal Columbus from [illegible] his [illegible] frail vessel found it. So with the invention of printing of steam, of the magnetic telegraph. Each of these had its own "fulness of time," and [illegible] distinct and Providential.

☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED. Most [illegible] illustrations and proofs of this which are to be found in the history of the world. We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *something yet better* to heal human maladies is at hand!

That this principle is as true of Medical as of Physical science is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it— The

Graefenberg Pills,

are deemed by all who have tested them to be an inconceivable advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH

The inventor of these Pills rests his theory upon no school nor dogma of ordinary medical teachers. Planting himself upon the revelation of the

ALMIGHTY CREATOR,
THAT
"THE BLOOD IS THE LIFE"

he requires that his disciples and his patients make pure the life current that leaps through their veins and arteries before they can hope for a PERMANENT cure. Belief before [illegible] give them, and so can others, but bright and joyous health must come from a pure blood.

But a most sad thought here comes in! So countless are the impositions which are practised upon the public by pretenders, and so numerous and boastful are the medicines advertised, that the reader may be slow to believe in this Great Remedy. A word, therefore, on this point

In the first place, READ THE GRAEFENBERG GAZETTE. No matter how sceptical you may now be, that paper will convince you. Thousands *have been* convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists, clergymen physicians, citizens. The bare enumeration of their names would fill this page! Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

GRATIS!!

In the second place, TRY THE PILLS. It will cost but the merest trifle, and will introduce you to a medicine which you will deem a blessing to the end of your days.

A thousand things press upon the minds of the advertisers which they would rejoice to say to the reader, but the limits of this advertisement forbid. But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED!

Asthma,
Bilious Complaints,
Boils,
Bowels derangement in,
Breast Pang,
Catarrh,
Constipation,
Cough of Pregnancy,
Costiveness,
Diarrhœa,

Stomach, various diseases
Whites

In all bilious or chronic disorders, these Pills achieve the most wonderful triumph. HERE THEY DEFY COMPETITION. And as the susceptibility of the American constitution is to these diseases, they are aptly styled by some

The Pill of the New World.

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES, CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS, MAKE THE URINE FLOW HEALTHILY AND CLEAR, AND TO GIVE TONE AND STRENGTH TO THE SYSTEM

It is impossible, within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills. But REASONS DO EXIST, which have abundantly satisfied the minds of thousands in this country, and among them the accomplished Physicians, Jurists, Clergymen, and private citizens, male and female.

☞ NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented, but a certificate in these days is scarcely worth the paper on which it is printed. A few extracts from the correspondence of the Company, will, however, be given

FROM INDIANA

"Your enterprise is the enterprise of the day. Its magnitude will astonish its originators. It is destined to effect a complete revolution in the medical world."

FROM A JUSTICE OF THE PEACE IN WESTERN N YORK

"I have sold a number of boxes to the citizens of this place. They have given entire satisfaction, and they are destined to become the most popular Pill of the day."

FROM TOLEDO, OHIO

"Having heard so much, and witnessed two or three cases treated in the mode directed by your *Journal*, I have thought it important you should have an agent at this place. In my opinion, more good can be done in this bilious climate by your medicines, than by the old modes.

I address you at the instance of a friend who is making a thorough trial of your remedies and with complete success."

FROM A DISTINGUISHED GENTLEMAN OF BOSTON

Gentlemen,

[illegible] cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills. For many years I have suffered much from constipation, which has deranged my whole system, and I have not known a day's good health for many years past, and being an old man, I despaired of ever again enjoying it, but a friend recommended me to try your Pills which I did, although without any confidence, the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community and will become the most popular medicine of the day."

FROM JUDGE ———, OF GEORGIA!

SIRS,

"Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that they have been of great service to me, and if they continue to give me the relief I have already felt I shall bless the day you sent them. I need not allude again to the sufferings I have before told you of, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood wherein they have performed some extraordinary cures."

FROM AN EPISCOPAL BISHOP

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills. I was induced to try them from the philosophical manner in which [illegible] reasoned on the subject, and I must do myself [illegible] and you the justice to say that [illegible] so speedily an effect could be arrived at [illegible] has been that of the Liver, from which I [illegible] getting better, but since taking your [illegible] general health, spirits and appetite [illegible] I hope to find myself able to [illegible] suffering, the duties of an [illegible] I will send to your agent for some Pills [illegible] With great consideration [illegible]
